AUTOSCREEN® PLUS FACT SHEET

Utilize biographical data assessment methodology to screen candidates quickly and effectively, and move them to the next stage in your hiring process.

What is AutoScreen® Plus?

AutoScreen® Plus is a web-based biographical data assessment tool that reviews a person's work habits. The 50 questions included in AutoScreen® Plus measures a person's dependability, person-environment fit, computer use, resiliency, compliance, acquiescence, frustration tolerance, soft-sell persuasion, pace consistency, attention to detail, and conscientiousness. Most candidates complete the assessment within 15 minutes.

Once the candidate completes the AutoScreen® PLUS they are scored immediately. Scores are then available to the hiring team or the candidate can be automatically moved forward in the next step of the hiring process.

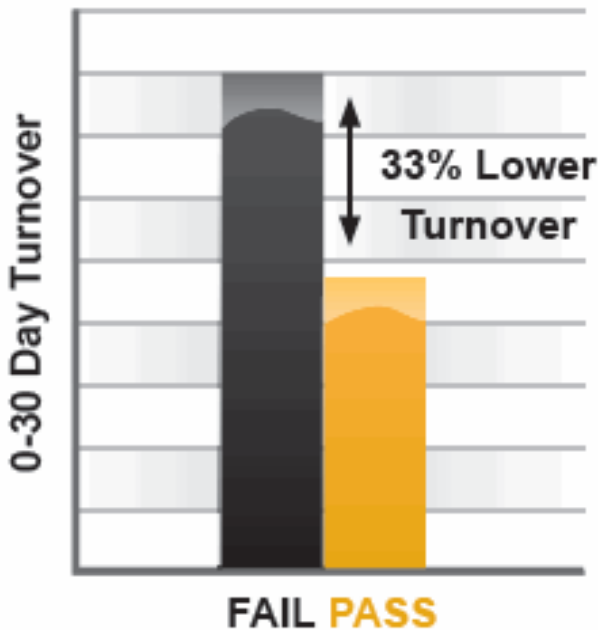

In about 15 minutes, AutoScreen Plus:

- Includes 50 test items
 - Assesses work habits, reliability, integrity and discipline
 - Predicts attrition, attendance and adherence ratings
- 

Why AutoScreen Plus?

- Uses validated bio data assessment methodology to understand a candidate’s attributes related to work.
- Goes beyond “standard” screening to assess candidates around the clock quickly, effectively, and cost-effectively
- Provides immediate scoring to eliminate potentially poor hires from consideration
- Can be easily administered in multiple locations to a large group of candidates
- Proven to predict early stage turnover

New Hires who failed the AutoScreen Plus assessment had 33% higher 0-30 day attrition.
 (Sample: 1,060 hires in the telecommunications industry)
